POLICY STATEMENT

The Company is committed to undertake all reasonable steps to ensure the health, safety and welfare for the best interest of our stakeholders and the communities where we live and work by complying with the provisions of law, industry rules and regulations, standards of independent accreditation bodies where the Company obtained accreditation, and contractual obligations.

OBJECTIVES

1. To provide the guiding principles to ensure health, safety and welfare of the Company's stakeholders.
2. To identify responsibility and accountability of every personnel and department in the organization to ensure the health, safety and welfare of stakeholders.
3. To integrate health and safety practices in all activities to ensure efficiency and quality of products and services.

SCOPE AND COVERAGE

This policy shall define the guiding principles and responsibilities for managing health, safety and welfare of the stakeholders of JG Summit Holdings, Inc. (JGSHI), its subsidiaries and affiliates.

DEFINITION OF TERMS

1. Ergonomics – an applied science concerned with designing and arranging things people use so that the people and things interact most efficiently and safely; also called biotechnology or human engineering.
2. Health – a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity;

GUIDING PRINCIPLES

7. Welfare – availability of resources and presence of conditions required for reasonably comfortable, healthy, and secure living and work conditions;

1. The Company shall establish policies and procedures on managing health and safety compliant with the provisions of law, industry rules and regulations, standards of independent accreditation bodies where the Company has secured accreditation as well as contractual obligations for the welfare of its stakeholders.

2. Health, safety and welfare shall be integrated in the management of the Company such that all activities are considered with the perspective of prevention of all types of accidents and protection of stakeholders.

3. Systematic identification of hazards and risk assessments shall be performed to ensure that appropriate actions are taken to prevent or mitigate the same.

4. The Company shall establish emergency and contingency plans to address residual risks, to minimize threats and protect the interest of stakeholders.

5. Based on monitored health and safety performance and analysis of incidents, the Company shall undertake continuous improvement by designing and adapting processes, systems and work practices for better ergonomics and safety.

6. Employees regardless of management level shall promote the safety culture and shall be accountable for ensuring and managing workplace health and safety.

7. Safety culture shall be promoted by educating, training and equipping employees to ensure that they are empowered to avoid unsafe situations and be able to respond to unexpected events.

8. Goods and services shall be procured from accredited suppliers that have health and safety management in place.

9. Contractors and other third parties engaged by the Company should have sufficient relevant information and training and should be equipped to ensure health and safety.

10. To the extent practicable, health and safety information regarding the Company's operations shall be provided to the local communities where the Company operates.

11. In view of the diverse nature and organizational structure of businesses across the

conglomerate, each Business Unit (BU) shall:

- 11.1. Establish and monitor implementation of their respective guidelines and standards related to the delivery of products and services aligned and compliant with the Enterprise Policy;
- 11.2. Ensure compliance and satisfaction of health, safety and welfare obligations required by the provisions of law and related to their industry, line of business and certifications from independent bodies.

12. The policy shall be reviewed and amended as necessary to take account of new legislation, advances in technology, and change in approaches to managing safety in a range of settings.

RESPONSIBILITIES

1. The Company recognizes and accepts its statutory responsibility to provide safe and healthy working conditions for employees, customers and other stakeholders who use and visit the Company's premises, live in the built properties, patronize or seek entertainment in its establishments, avail of its services or may be affected by its activities. In general terms, this includes but is not limited to the provision and maintenance of:

- 1.1. Plant, equipment and systems that are safe and without risks to health;
- 1.2. Safe use, handling, storage and transport of raw materials and finished goods;
- 1.3. Information, instruction, training and supervision that enables all employees to avoid risks and contribute to their own safety and health at work;
- 1.4. A safe place to work, with safe means to enter and leave premises;
- 1.5. A healthy working environment;
- 1.6. Adequate welfare facilities.

2. Business Unit and Corporate Center Heads together with CEO and CIO shall be responsible for ensuring that:

- 2.1. Safe working practice is based on a sensible and proportionate risk assessment approach;
